

## **Benchmarking**

The benchmarking module was developed for programs to compare program data collected in the Annual Report. For all non-confidential fields, at least one program must be selected for comparison. For all confidential fields, a minimum of 5 programs must be selected for comparison.

Benchmarking reports can be run for the following fields:

- Number of slots available for admission
- Number of completed applications for admission
- Number of students who were offered admission
- Number of students who entered the program
- Students enrolled by ethnicity
- Students enrolled by race
- Students enrolled by gender
- Core Faculty Positions
- Associated Faculty Positions
- Adjunct Faculty Positions
- Core Faculty Vacancies
- Associated Faculty Vacancies
- Standard teaching credit hours
- Standard teaching Contact hours
- Credit hours assigned to the AT program director
- Contact hours assigned to the AT program director
- Credit hours assigned to the AT clinical education coordinator
- Contact hours assigned to the AT clinical education coordinator
- In State
- Out of State
- Total salary costs for faculty and for staff
- Number of students graduated from the program

Once you are logged in, navigate to the 'Benchmark' tab and 'add report.'

Name	Field Type	Year	Cohort Programs	Actions
None.				

## Select which field to run the report for:

### Instructions

- For non-confidential fields, please select at least one program.
- For confidential fields, please select a minimum of 5 programs for comparison - forming the peer cohort and for the same field if you change the cohort group, then at least 2 programs should be different from the previous selection.
- For confidential fields, Cohort Average is shown only if there are at least 3 programs with the data ( in the cohort group ) for a particular year.

### Create Report

**Field Type**

**Report Name**

**Description (optional)**

You can then select the programs you wish to benchmark with and hit 'save' to run the report.
